

NEW Update On-site COVID-19 tests at Blue Diamond Resorts

December 8, 2021

Dear Valued Partners,

In a dedicated effort to provide a seamless travel experience to any of our resorts throughout the Caribbean, we would like to share new details regarding on-site testing at all Blue Diamond Resorts properties.

For the convenience of our mutual clients, starting **January 1, 2022**, guests returning to their home countries who are required to present a negative COVID-19 test have access to **RT-PCR and viral antigen testing on property at an added cost**. Testing will be carried out by a medical professional in a designated area of the resort and guests will be charged the below rates.

Please note this information is subject to change at any time and without previous notice.

Disclaimer: COVID-19 viral testing is a third-party service provided by a certified local lab in alliance with our in-house doctors. Blue Diamond Resorts will not accept responsibility for any disputes related to the use of this service. The use of this service is at the complete discretion of the guest and guests will always have the option to visit any local clinic to take the test on their own.

POSITIVE RESULTS

Should any Blue Diamond Resorts guest tests positive for COVID-19 on property, we have established very strict protocols in response to protect and ensure the health and safety of other guests and employees. The following protocols instituted on-site cover every element surrounding a suspected COVID-19 case:

- Where guests will be quarantined
- What instructions they must follow during their stay
- How we will assess their health status
- How to provide them food and care for a relaxing and pleasant stay
- How to manage and treat all items guests would use during their quarantine, including the linens and dishes

Please note specific government protocols and national regulations may vary according to the destination and slightly impact resort response.

To accommodate guests who test positive on-site, Blue Diamond Resorts has implemented special nightly rates in the event they must extend their stay in destination. These rates will only cover the operational costs and therefore will be exclusively used for these types of cases.
